

CLARISA KIMSKII

(Merge, Nowadays / US)

Brooklyn-based DJ and producer Clarisa Kimskaa has cemented her musical footprint on the borough since moving back in 2022. Through a palpable blend of psychedelic and driving techno, Clarisa's approach to the genre is deeply idiosyncratic - an assemblage of both timeless and modern grooves.

As a producer, Clarisa has contributed to a handful of respected labels (Monday Off, Dusk & Haze, Mysteries of the Deep, etc.) within her sonic niche, but it's through her own label L.A.G where the ethos of her sound truly takes form - a detailed variation of propulsive and atmospheric soundscapes.

Clarisa is deeply rooted in the techno subculture's underground, and in early 2022 - the 20+ year veteran was named resident DJ of the Brooklyn-based, queer party Merge. Through her residency at Merge and regular appearances at the city's premiere institutions in BASEMENT and Nowadays, Clarisa's prestige is undeniably felt.

Her pure, yet passionate approach to DJing has graced the decks of memorable nights at international institutions in Tresor, About Blank, Output, Griessmuehle, and at notably iconic parties in Wrecked, Club Toilet, Pornconceptual, and The Bunker NY. Recent festival appearances at Taiwan's Organik Festival and North America's Honcho Campout and Sustain-Release have only elevated her reputation as a force within those respective communities.

The saga continues with juicy bits on the horizon.
