

CLARISA KIMSKII SHE/HER

(ON BOARD – US)

Brooklyn-based DJ and producer Clarisa Kimskaa has cemented her musical footprint on the borough since moving back in 2022. Through a palpable blend of psychedelic, tribal and driving techno, Clarisa's approach to the genre is deeply idiosyncratic - an assemblage of both timeless and modern grooves.

As a producer, Clarisa has contributed to a handful of respected labels (Bite, Monday Off, Gradient Sound, Mysteries of the Deep, etc.) within her sonic niche, but it's through her own label L.A.G where the ethos of her sound truly takes form - a detailed variation of propulsive and atmospheric soundscapes.

Clarisa is deeply rooted in the techno subculture's underground. In early 2022 - the 20+ year veteran was named resident DJ of the Brooklyn-based, queer party Merge which she held until February of 2025. Her profile rose considerably the past couple of years with regular appearances at institutions such as Berghain and NY's BASEMENT.

Her pure, yet passionate approach to DJing has graced the decks of memorable nights at international institutions in Nowadays (NYC), Tresor, RAUM (NL) , Drugstore (Belgrade), and at notably iconic parties in Wrecked, Pax Romana, SAMHAIN, Club Toilet, Pornceptual, and The Bunker NY. Recent festival appearances at WHOLE, Wonderfruit (Thailand), Taiwan's Organik Festival, Rural (JP) and North America's Honcho Campout and Sustain-Release have only elevated her reputation as a force within those respective communities.
