

GiGi FM

(SEA~RÈNE, BAMBE - FR)

GiGi FM is a multidisciplinary artist, DJ, dancer, and music producer whose journey began in the underground squat raves of South London. Now based in Berlin, GiGi has grown into a dynamic force in electronic music, captivating audiences at iconic stages and festivals worldwide. Whether blending techno, bass, and breaks or creating immersive ambient soundscapes, GiGi FM's sets are a masterful exploration of versatility and emotional depth, transporting dancefloors into states of ecstasy.

Now in her sixth year as a resident on NTS Radio, GiGi FM continues to explore sonic dimensions and share her unique musical palette. Her show is a space for deep inner journeys, weaving emotional storytelling through sound. Over the years, she has hosted esteemed guests such as Donato Dozzy, Voices From the Lake, Jako Jako & Mareena, and Vladimir Ivkovic, with many more to come. Each episode reflects GiGi's ability to curate a shared space for introspection, transcendence, and collective experience through music.

Movement has always been central to GiGi's creative practice. A professionally trained dancer (Paris Opera & Alvin Ailey), she approaches music production as an extension of the body, often incorporating gestural techniques to create sound. Her 2022 EP Magnetite on Bambounou's Bambe label was crafted using a MYO motion sensor, where arm gestures layered sounds in real time, embodying the interplay between physicality and sonic expression. This innovative approach flows into her self-released series, Kiwi Synthesis Diary, beginning with Vol. 1 in 2021, a deeply personal project born from using Ableton as a journal. Its successor, Kiwi Synthesis Diary Vol. 2 (2023), marked the launch of her own label, Sea~rène, a platform for euphoric, boundary-pushing soundscapes. Her most recent release, Movimiento (2024), expands on this narrative. The EP celebrates the transformative energy of dance, blending vibrant club rhythms with introspective sound design. It's a body of work that encapsulates GiGi's ethos: to create music that moves both body and mind.

Deeply influenced by astrology, philosophy, and the cosmos, GiGi FM's artistry bridges sound, movement, and metaphysics. In addition to her DJ sets and productions, she is developing a live ambient project linking meditation, reflection, her own poetry, and productions to craft deeply immersive experiences. Whether on the dancefloor or in moments of stillness, GiGi's

work invites audiences to connect with themselves and the universe around them.

In 2025, GiGi FM continues to tour globally, including her first Australia tour and an extensive US tour, while releasing new music and curating innovative projects. Ever-evolving, she remains dedicated to crafting music and experiences that inspire reflection, transcendence, and joy.
