

Umwelt

(Rave Or Die, Monnom Black, New Flesh / FR)

As an experienced DJ and producer hailing from the underground rave & techno scenes of the 90's, Umwelt is a truly rare underground artist and one of the most important and prolific electronic producers.

Author of an important discography including on his own Rave Or Die and New Flesh Records labels, his productions play the card of a specific and dystopian electro-techno sound. He always delivers a fierce, dark and cinematographic music at the crossroads between the classics and an assumed modernity. His last techno album released on Monnom Black "Dead Eyes Society" (2022) is the perfect illustration of his huge ability of bringing people all together in different moods.
